

Magazine Picture Graffiti

How does it help students?

- Allows students to creatively alter pictures from magazines as a form of self expression.

What will we need?

- Coloring materials (Markers will work best)
- Pictures from magazines. Can be from any type of magazine that will have large, full page photo spreads: nature, travel, photography, etc

How do we do it?

- Allow students to select photo that they would like to work on
- Students will then alter the photo however they see fit.
